

COMPANY PROFILE

Supply Chain & Logistics, under one roof

Bamako, Mali — SARL, 2026

About Us

Sahel Supply & Logistics (SSL) is a Malian logistics and supply chain company, created to be useful to others. Based in Bamako (Missira), SSL is a SARL founded in 2026 by a duo of industry professionals, with the ambition of becoming a major player in supply chain and logistics in Mali and the wider sub-region.

Professional · Reliable · Responsive

Our Mission — To inspire development and foster progress.

Our Vision — To become a major player in supply chain and logistics in Mali and the wider sub-region.

Our Values

Consideration

The client is what keeps a business running: we listen closely to respond effectively with reliable, high-performing solutions.

Innovation

We constantly seek to improve our services and processes to create more value for our clients and partners.

Integrity

We act with professionalism, transparency and honesty in all our commercial and operational relationships.

Cohesion

We believe in the strength of teamwork and build a collaborative environment where everyone contributes to collective success.

Leadership

We aspire to be a player that inspires development, fosters progress, and contributes to the evolution of the logistics sector.

Our Services

Service	What we do	What sets us apart
Air Freight	End-to-end air import/export shipments, customs formalities, real-time tracking.	Speed, cost transparency, local customs-transit expertise.
Sea Freight	Sea shipment organization and follow-up (FCL/LCL), cost optimization, cargo security.	Negotiated rates, personalized support, proactive tracking.
Road Transport	Road shipments across Mali and neighboring countries (Guinea, Senegal, Ivory Coast, Burkina Faso), fleet management.	Local expertise, flexibility, adaptation to on-the-ground realities.
Sourcing & Procurement	Identifying reliable suppliers, price negotiation, order and delivery management.	Transparency, local and international expertise, competitive rates.
Customs & Transit	Full handling of import/export customs formalities, transit documents, compliance.	Recognized expertise, speed, mastery of international regulations.
Warehousing & Distribution	Secure storage spaces, computerized inventory management, inbound/outbound tracking.	Modern tools, flexibility, constant inventory visibility.
Agricultural & Local Exports	Selection and packaging of agricultural products (mangoes, cotton, shea, sesame...), formalities and transport.	Sector expertise, compliance with international standards, traceability.
Consulting & Training	Support for professionals in customs transit, supply chain, fleet management and international standards.	Results-oriented teaching, on-site or online training.

Sectors Served

NGO & humanitarian · Mining & energy · Construction · Industry / factories · Trade & distribution · Agriculture · Individuals / expatriates

Certifications & Approvals

Quality process underway; IATA certification targeted for 2026–2027.

Our Team

Sahel SL is led by a duo of logistics professionals who share a pragmatic approach to the trade. To support superior responsiveness, our two directors operate transversally across all projects. From operational management to commercial and financial oversight, they master every step of the chain — the assurance, for our clients, of dealing with experienced, directly decision-making contacts. The team is also supported by an operations agent and an express & groupage agent.

Our Process

1. Quote request → 2. Request received → 3. Feasibility study → 4. Quotation submitted
